It is noticeable, however, that the British money does not have to go begging for takers and it is reasonably certain that the result of the race will mean that much money will change hands. The British have tried so many years to lift the cup and have been so often unsuccessful that Yankees believe that their ancient enemies cannot rig up a boat fast enough to

PLANETS VS. BARBERTONS.

The Planets and the Barbertons will play a game of football and open the season for both teams at Barberton next Saturday. These teams played several games last season with varying results and it is the belief of each that it can easily defeat the other. The game has been widely advertised in Barberton and there is every prospect that a good big crowd will attend and that this will mark the opening of a busy and enjoyable season for the bruisers of both teams.

FOOTBALL SUPERSTITION. Great stress is laid by the members of football teams on the status of the first game played each season. Players believe that if they win the first game of a season they will have good luck until it closes.

In connection with this it may be said that the first game of a season is usually the worst, because the players are often green at this time and the chances for good plays are very
